

# OVERVIEW ON UGC'S NEW ACADEMIC PERFORMANCE INDICATORS (API): AN FORMAL PRESENTATION TO LIBRARY AND INFORMATION SCIENCE JOURNALS ON THE UGC API LIST

Vijay G. Wardikar\*

**Abstract** *This paper briefly introduced the academic performance indicators for teachers in higher education & changes to be implemented in API as per 4th Amendment of UGC. Put forward the importance of publications in reputed journals with respect to API of UGC. Additionally the purpose of this paper is to provide alphabetically prepared list of journals regarding LIS.*

**Keywords:** *Academic Performance Indicators, Research Publication, Amendment*

## INTRODUCTION

The University Grants Commission (UGC) has developed Minimum cumulative API scores using the PBAS scoring proforma and promotion of teachers and other academic staff through the UGC Regulations 2010. It is also relevant to the library professionals at the level of Assistant librarian in universities and also college librarian. Time to time UGC has taken step to modification in regulations for quality maintenance in higher education. UGC amended fourth times through Regulations, 2016. dated as 11th July, 2016.No.F.1-2/2016 (PS/Amendment) – 4th Amendment: In exercise of the powers conferred under clauses(e) and (g) of sub-section(1) of Section 26 of University Grants Commission Act, 1956 (3 of 1956). These Regulations popularly known as University Grants Commission (Minimum Qualifications for Appointment of Teachers and other Academic Staff in Universities and Colleges and Measures for the Maintenance of Standards in Higher Education) (4<sup>th</sup> Amendment), Regulations, 2016.

Recently another decision taken by UGC regarding CAS and published a draft in 2018 for seeking Feedback/Comments/Suggestions in the prescribed format from stakeholders for the maintenance of standards in higher education and revision of pay scales.

## OBJECTIVES OF THE STUDY

- To put forth the outline about new API;
- To express the importance of journal publications in higher education.
- To compile the alphabetical list of journals in the field of library and information science from the point of view research publication.

## WHAT DOES MEAN API?

API is a tool by which assessment of the maintenance of quality in higher education i.e academic performance indicators, that formed dissent between professionals in higher education since 2010. The UGC has made radical changes with regards to the accountability on teachers along with changing norms under research and academic contribution.

The growth of a student, teacher or an institution can be assessed by the measure that gives by the UGC in 2010. Ever since its introduction the API has always been a argumentative subject of discussion.

Due to toughness of Academic Performance Indicators (API) the professionals in higher education has been opposed time

to time since 2010 that's why UGC has been modified and made flexible with responsibility on teaching while caps on various sub-categories of research have been withdraw.

In the format of new amended API, computed points for the category of teaching learning evaluation, a teacher will have to get 100 points yearly at the level of assistant professor, 90 at the level of associate professor and 80 for professors. As compare to earlier format Student teachers evaluation by student has been incorporated and the five sub-categories has been made into four categories of co-curricular activities and research earlier evaluated together will now be evaluated individually as well as collectively depending on certain factors. Large portion of materialism in the previous API was necessitate in case of co-curricular activities with college principals and vice-chancellors often acting as final authority. Now it has been made easy and scores have been reduced. Also, evaluation of these two categories will not be done annually. To fix the value education surprisingly new area of co-curricular activity has been acquainted. These are sports, NSS, NCC, field trips and some are additional.

Regarding research, from every sub-category cap of minimal points has been removed but sub-categories are persisting till now. Such as, in initial API a teacher had to get 55% from research papers publications, 20% from research projects, 10% from research guidance undergraduate dissertations and 15% from training course and conference seminars. Now a teacher can score from any sub-category. Definite solution can drawn by UGC by providing the ready list authentic journals regarding suspicious publication in journals. Also, for the first time research journals in Indian languages will be included.

### Changes to be Implemented (Teachers' Context)

- Evaluation of teachers through students.
- Only students with more than 75 percent can evaluate their teachers.
- Under teaching/learning/evaluation, a teacher is expected to have 100 points as an assistant professor.
- Associate professors are expected to have 90 points in the same category.
- Professors are expected to have 80 points.

### Changes to be Implemented (Students' Context)

- Evaluation of co-curricular and research work will be carried out individually. No annual evaluation will be done.
- Simplification of the evaluation process is required.

- Overall scores in co-curricular activities and research have been reduced.
- New fields for evaluation have been introduced such as NSS, NCC and field trips.

Research journals are influential tool for researchers. Newer researches are published in the subject devoted journals. Quality of journals has always been a matter in question in the academicians of higher education. Academic Performance Indicator Confirmed by UGC in 2010. As an amendment to this Regulations, the UGC produced the list of 38,652 journals in which published research papers are to be considered for the purpose of selection and promotion of university and college teachers and other academic staff including library professionals in the territory of India on 10<sup>th</sup> January 2017. This list covers all subjects and faculties and has been arranged alphabetically. This paper contain the bibliographical details of LIS journals.

### Coupling of Publications with API

Upgrading under CAS in favor of associate professor and professor UGC had compelled in 1998 to published research article in three and five major publications. In this notification there is no commentary on the type of publication but the publications must be assessed by three resource persons in related subject and they should have responded positively for advance step. It was the rights of the university/experts to consider the quality of the publications. Previously it was also think about miscellaneous type publication in higher education due to unclear instructions

UGC has tried to provide all inclusive conventions in the aforementioned UGC Regulations on 1st January 2009. The objective of publishing this notification was to implement a qualitative, transparent and reliable selection system and creation of marks based system on educational performance for appointment and promotion of university and college librarians, teachers, director of physical education. There are three categories of activities, namely:

- Teaching, learning and evaluation related activities.
- Co-curricular, extension and professional development related activities.
- Research and academic contribution.

The category-3 Research and Academic Contributions offers different scores for APIs for:

- Research papers published in referred journal.
- Research publications (books, chapters in books, other than referred journal articles).
- Research projects.
- Research guidance.
- Training course and conferences/seminars/ workshop papers.

The regulations 2010 also states that:

- Along with the official publication of a wide variety of subjects, the University authorities, subject experts and ISBN/ISSN experts recommends National/regional level journals of quality in the related subject(s) and systematic list of journals in Indian language and upload them on the University website which are to be updated periodically.
- The working of the publication of publications published in the Indian language will be done by the expert committee established by the Chancellor of the Linguistic state.

The process of incorporating publications recommended by various universities in the University Grants Commission list issued on 10<sup>th</sup> January 2017 is still going on.

The UGC mentions that this list would be 'dynamic' and there will be updating of list from time to time.

## Preparing a Consolidated List

Moreover, a consolidated list made by the manner described as below:

- The subjects under which journals are classify vary largely.
- There were several entries of the same headline journal in the list of UGC approved journals are not included in this compiled work.

## ANNEXURE-1

### List of LIS Approved Journals by UGC

Sr.No.	No. of Journal as per UGC List	Name of Journal	ISSN	Country of Publication	Source	Broad Subject
203	41142	A.B.I. Technik	7206763	India	UGC	Social Science
295	47715	Academic Social Research	24562645	India	UNIV	Multidisciplinary
1	202	Accountability in Research	8989621	United Kingdom	WoS & Scopus	Social Science
204	41143	Advanced Technology Libraries	0044636X	United States	UGC	Social Science
68	11852	Advances in Librarianship	652830	United States	Scopus	Social Science
69	11853	Advances in Library Administration and Organization	7320671	United States	Scopus	Social Science
70	12096	African Journal of Library Archives and Information Science	7954778	Nigeria	WoS & Scopus	Social Science
205	41144	African Research and Documentation	0305862X	United Kingdom	UGC	Social Science
206	41145	Against the Grain	10432094	Colombia	UGC	Social Science
351	64603	Agricultural Information Worldwide	20757751	Armenia	UNIV	Social Science
9	3109	AIB Studi	22809112	Italy	Scopus	Social Science

- In this list a lot of journals pertinent to LIS are without deployed the terms 'library'; 'libraries' and 'librarian' in the title of the journal. Terms such as documentation, information, access, serial, acquisition, collection, reference, classification, digital, lending, etc, were used for identifying journals related to the subject. Further the terms like information and digital were including in other subjects.
- Sort listed the titles of LIS journals from Web of Science, Scopus and other sources.

By following above mentioned methods, the author has prepared the list of 357 journal titles of LIS along with some other bibliographical details which is providing through Annexure-1.

## CONCLUSION

The initiative taken by UGC has appropriate step by generating the list of journals which is very useful for higher educationalist. This has made a definite recognition in overall academic surroundings. This will regulate the research of higher education and maintain discipline an upright position at the international level by improving research quality. it is the right step of UGC to impose restrictions for avoiding the duplication of publications in higher education.
